

# CR 30 SP+ PACKAGE

## FOR QUANTUM MEDICAL IMAGING

The CR 30 SP+ Package introduces Agfa HealthCare's new CR 30-X digitizer, an exciting new table top CR designed specifically for the smaller practice. The compact and convenient CR 30-X is easy to install, use and maintain, providing seamless integration, from X-ray exposure to print or softcopy.

The CR 30 SP+ Package includes features that provide the same high image quality and advanced functionality of packages with more expensive full size models, because every patient deserves the highest image quality technology can deliver without compromise. Loaded with easy-to-use NX software features, designed to optimize workflow and make patient care your number one priority, this great package comes complete with the software and hardware you need to *Go Digital* today.

### *The Most Frequent Tasks Are The Easiest To Do*

The radiographer can perform all their daily tasks using NX's Worklist and Examination windows. The Worklist window allows the radiographer to enter patient data or to select it from the Modality Worklist. In the Examination mode, the radiographer can capture the patient identification and QC the image all in the same window. The Fast Preview feature allows confirmation of correct positioning and exposure within seconds, even while the final image is being completed.

### *Excellent Image Quality*

The CR 30 SP+ Package includes MUSICA<sup>2</sup>\*, Agfa HealthCare's Multi-Scale Image Processing software. MUSICA<sup>2</sup> uses patented contrast equalization algorithms to automatically process the image. The result is enhanced visualization of even subtle features in both bony and soft tissue for uncompromising image quality.

*For a broad range of applications...*
